

DIRECTOR'S REPORT

Summer 2015

Services

We have purchased a charging station and connection cables for the public.

Our Museum Passes were very popular this summer.

Feedback from Ann Kopple, Beach Manager, has been once again very positive regarding our Books at the Beach program

Purchases

We need to replace two of our PC's at a cost of \$742.70 per computer. These would be all in one machines.

Finances

We received \$50.97 from Better World Books in commissions.

We received \$15.05 in eCommerce payments.

We received a gift of \$500 in memory of E. Willa Haas. We will affix a nameplate on the plaque.

IT Policy

The Village has adopted an IT Policy with the expectation that the Library would be covered. However, many of the items in their policy are unworkable due to the separation of our network from theirs. I have consulted with other libraries who have IT Policies to see if we could adopt one which would adhere to the spirit of the Village Policy but geared towards library operations.

Open house

We have scheduled an Open House for Saturday October 17 from 1-4 pm to introduce residents to our offerings. I hope you will attend.

Important dates

October 13 -- Library Board meeting, 7pm.

Respectfully submitted,

Arlene Nevens

Library Director
